## DUNAMIS INTERNATIONAL FAMILY CHURCH

---

### THEME: THE MOVE OF GOD

26 July 2009 – Morning Service 1

Pastor Wentzel du Plessis

---

#### Introduction

Revival is here and God is taking us step by step  
We cannot stay in the same place, we need to move on  
If you are doing the same thing everyday, you are in religion  
If you are busy with religion, you are going to a place called Nowhere  
You can be in church every Sunday because you have come into a system  
It is about God breathing in you and you breathing in Him  
It is about relationship

- You need to take hold of the move of God
- God is going to call out a people who will move with God
- The movement of God will be a movement where God will bring us in partnership with Him
- Find a level of relationship that breaks detachment and brings you into partnership and covenant
- We can praise God with our lips, but our hearts are far from Him
- Let God know that you want to break out of the level of programs and move into relationship and connection
- Everything comes out of the Son
- A woman comes from a man and a natural woman knows that someday she will be connected with a man and they will become one
- Do not be like a separated couple, who live together in a house for the sake of the children. They are married by law but are separated
- You will need to break through detachment
- God wants our hearts intimately connected to Him and the move of God will be a move where He brings back and restores relationship
- It will be a people who will be connected to God

#### Isaiah 59:21

- God is giving us a great promise that if we come in covenant and partnership with Him, we will connect with Him and He will put His words in our mouths and we will see that heaven will be available for us
- Everyday we will be connected to the source
- Do not live like a separated couple
- The move of God will cause us to hear Him
- The words of God will be in our mouths. It will not be our words, but His
- God did not create us for limitations
- That which He spoke, happened
- If you are busy with limitations, you are detached because you do not hear Him, you do not sense Him
- It will be like two lovers who have grown cold in their hearts, no connection, no intimacy
- We desperately need to hear Him again and feel Him again
- **When the Spirit and Word are alive within you, you will do things the way God does. This is because you will be where He has already appeared**
- There is detachment in the church of today that is why there is poverty
- The sky will be the limit when there is partnership
- Because when there is partnership, you begin to hear what He says
- The people in the book of revelations did not see serpents anymore, you will see the devil as a dragon, which is something, which does not even exist. You will make a small thing a big thing. The enemy is a defeated serpent, he has no power

Amos 8:11

- Everything that can be shaken, God is going to shake
- God wants to get His house in order
- He will sort out the detached from those who are in partnership, He will send a famine. The detached will not be able to hear the voice of God. His voice will go still
- This is so that people will come into partnership with Him, not detached but connected
- YOU NEED TO FIND A LEVEL OF CONNECTION WHERE YOU WILL BREAK THROUGH
- Do not sit in the house detached from God
- Wherever you go, you will not find the Voice of God, you need to come back into partnership with Him
- When you are in partnership with Him, you will drink from His water, even in the midst of a storm, you will be safe
- Storms will come, but make sure that you are connected to God
- There will be a shaking in your marriage, relationships and sons and daughters
- But if you are in Partnership with God, you will come out fine

### **1. If you shine, nations will align**

- Arise and Shine
- Isaiah 60:20
- If you are detached as a married couple, you will see that the woman and the man is dead, they only go through the motions, but they cannot arise
- When the 10 000 come, they go down
- You will arise, because what you carry is life
- When you are in partnership, you go where He goes
- God will always know how to lead you and you must follow
- Darkness will come because there is detachment
- The breed that God is raising up will begin to shine because there is partnership and connection
- When you begin to shine, people will be attracted to you
- You do not need to say a word, because people know that there is light within you
- God is once again raising up a Daniel and David
- God will use His house and company of people who are in partnership with Him and use them to advice and bring counsel to the leaders of the people
- God used Daniel to speak to the King to guide him so that the people would not suffer in the famine
- You will not run after people, people will run after you because they will know what you carry

### **2. There will be a revelation of purpose**

- You will know what you are designed to be
- Don't confuse your natural ability for what you are designed to be
- You are designed to be a tabernacle of God
- When you know what you are designed to be and what your purpose is, you will find success, because you will know that your purpose is to carry heaven
- They will say: 'There is a lawyer or businessman, but most of all, there is a woman or man of God.'
- **You will make sure that you handle the things of God correctly because your purpose is that you live for Him**

### **3. There will be clarity of direction**

- There is only one thing that keeps people going and that is money
- God is going to shake you
- He will not share His glory, stop making money your security
- **The only time you think that you have it, is that even after being shaken, you are still standing**
- What is lost is lost and it does not matter because God will bring it back 100 fold

- When you are in famine, you will be able to handle it because you will have clarity of what is going on because you are in partnership with Him
- You will stay in touch with Him and heaven therefore you will know when it is the devil and when it is God
- You will know when to surrender and say to God to have His will with you

#### **4. There will be an unfolding of destiny**

- God will take you to a place called finished
- You will begin to realize that you are important, that you need to get healthy
- You will see that you need to take care of your marriage and destiny, because if you do wrong things, it will hurt your future
- When you become connected, you begin to realize that you are a person of destiny and that God's plans are important and that you will begin to follow it with all your heart

#### **5. There will be a celebration of victory and a destruction of evil forces**

- You will know what it is to conquer and stand in victory
- When you are not in partnership, your problem is really a problem
- You become pacified by your problems, you begin to accept second best
- When you are in partnership, you do not settle for God's good will, but for God's perfect will
- To see the lion, bear and giant and still kill them
- You have one perspective, which is that God is big and everything else is small
- When David killed the bear, it was a private victory
- God made it public, when David killed the giant
- You do not measure by size, but by God
- It will be a celebration of victory
- There are some private battles that you need to win now
- Stop listening to the growl of the bear, God wants to give you victory
- You need to overcome and celebrate victory
- Jesus defeated the devil
- God is using the devil for His purpose
- You need to defeat the devil the way Jesus has
- God is using the devil to make you strong
- The devil is small, he is not the champ

#### **6. God will increase your influence**

- Everywhere you go, heaven will be there
- You become the door for heaven to invade
- The people, who are in partnership with Him, will become the door for heaven to invade
- God is starting with us, revival is here
- Move where God is moving
- Appear where He appears

#### **In Closing**

**We must say, 'Lord I refuse to stay detached from You, I am coming into Covenant with You.'**

**The Lord will reply and say that His Word will become yours**
